YANA SOURCING

Actuators

RFQ Specification Checklist

Actuator type
Electric linear or rotary, pneumatic cylinder or hydraulic cylinder

Travel
Stroke or angle and required end positions

Output and speed
Continuous and peak force or torque, velocity and acceleration

Duty and loads
Cycle time, side loads, shock loads and operating environment

Mounting
Mount style, envelope, shaft or rod-end interface

Power and controls
Voltage or fluid supply, feedback, drive and brake requirements

Acceptance evidence
Accuracy, repeatability, duty and life tests as required

Order requirements
Sample quantity, repeat volume, destination and target date
