YANA SOURCING

# Hoses

RFQ Specification Checklist

**Hose construction**
Wire braid, spiral, thermoplastic or other specified design

**Working conditions**
Operating pressure, transients, fluid and temperature range

**Dimensions**
Inside diameter, assembly length and length tolerance

**End fittings**
Thread, sealing face, material, orientation and clocking at both ends

**Routing**
Minimum bend radius, clearance and movement in service

**Cover**
Abrasion, weather or other exposure requirements

**Standards and evidence**
Applicable specification plus pressure and impulse test records as required

**Order requirements**
Sample quantity, repeat volume, destination and target date
