YANA SOURCING

Industrial Sensors

RFQ Specification Checklist

Sensor type
Proximity, photoelectric, distance, pressure, temperature or flow

Range and performance
Measuring range, accuracy, repeatability and response time

Output
NPN, PNP, analog or digital interface as specified

Electrical and mechanical fit
Supply, pinout, connector and mounting dimensions

Environment
Temperature, ingress protection and exposure requirements

Order requirements
Part number or drawing, sample and order quantities, destination and target date
