YANA SOURCING

Regulators RFQ Checklist

Compressed-air regulators and air preparation assemblies for industrial pneumatic systems.

Configuration Standalone regulator, filter regulator or modular air preparation unit

_____

Pressure Inlet range, outlet adjustment range and target setpoint

_____

Flow Peak demand, allowable pressure drop and supplier flow curve

_____

Control behavior Relieving or non-relieving, plus droop and repeatability

_____

Connections Port size, thread standard, gauge and mounting

_____

Filtration options Filter grade, bowl material and drain type

_____

Electrical interface Supply, command signal and feedback for electronic models

_____

Order details Part reference or drawing, quantity, delivery destination, target date and sample acceptance requirements.
