Vacuum Pumps RFQ Checklist

Industrial vacuum pumps for material handling, packaging, forming and process equipment.

Technology Oil-sealed or dry pump, or blower as appropriate

_____

Working vacuum Target inlet pressure on an absolute scale and required ultimate pressure

_____

Pumping speed Required flow at working pressure and supplier performance curve

_____

Process load System volume, evacuation time, leak rate and gas composition

_____

Motor and utilities Voltage, phase, frequency, power and cooling

_____

Installation Inlet and exhaust connections, filtration and available space

_____

Maintenance Duty cycle, service intervals, consumables and spare parts

_____

Order details Part reference or drawing, quantity, delivery destination, target date and sample acceptance requirements.
